“One machine can do the work of fifty ordinary men. No machine can do the work of one extraordinary man.”

Summary

Data Engineer and Cloud Architect with experience designing data platforms, analytics infrastructure, and AI-enabled systems. Skilled in building scalable data pipelines and cloud-native solutions across AWS and Google Cloud. Background in finance and analytics with strong expertise in Python, data engineering, and LLM-based applications. Passionate about leveraging data and AI to deliver practical business value.

Skills

Programming	Python, Bash, SQL
Data Engineering	Airflow, Kafka, Mage, ETL/ELT pipelines, Data Integration
AI / LLM Systems	LiteLLM, Langfuse, LLM APIs, Prompt Engineering, LLM Observability
Data Science	NumPy, Pandas, Polars, Scikit-learn, Tensorflow, Keras
Cloud Platforms	AWS, Google Cloud Platform, Alibaba Cloud
Infrastructure / DevOps	Docker, Terraform, Linux
Databases	SQL, BigQuery, MongoDB
Languages	English (IELTS Band 8.0), Indonesian

Experience

Rey.id - PT Vertika Technologies Nusantara

Jakarta, Indonesia

AI / DATA PLATFORM ENGINEER

May 2025 - Present

- Designed and maintained scalable data pipelines supporting analytics and operational reporting across multiple business domains
- Integrated diverse internal and third-party data sources, building reliable ingestion and transformation workflows
- Improved the performance and reliability of the existing data platform through pipeline optimization and workflow automation
- Collaborated closely with product, analytics, and engineering teams to translate business requirements into robust data solutions
- Automated operational processes using Airflow and Python, reducing manual effort and improving deployment efficiency

PT Berca Hardayaperkasa

Jakarta, Indonesia

AWS SOLUTIONS ARCHITECT - DATA SPECIALIST

May 2024 - May 2025

- Designed and implemented cloud-based data and analytics architectures for enterprise clients using AWS services
- Advised project teams on scalable data platform design, including data ingestion, transformation, and analytics workflows
- Evaluated emerging cloud technologies and proposed architectural improvements to enhance performance, reliability, and cost efficiency
- Worked closely with cross-functional stakeholders to ensure technical solutions aligned with business requirements
- Developed automation scripts and tooling to streamline infrastructure operations and reduce manual maintenance tasks

PT Datasintesa Teknologi Nusantara

Jakarta, Indonesia

DATA ENGINEER

Sep 2022 - Present

- Designed and implemented end-to-end data pipelines enabling reliable ingestion, transformation, and delivery of business-critical datasets
- Built and maintained analytics infrastructure supporting data-driven decision making across multiple projects
- Integrated heterogeneous data sources and ensured consistent data quality and availability
- Collaborated with engineering and business teams to translate requirements into scalable data solutions
- Automated operational workflows and data processes using Bash and Python scripting

PT Paman Ryan Indonesia

Jakarta, Indonesia

INVESTMENT ANALYST

Mar 2022 - Sep 2022

- Conducted financial market research and macroeconomic analysis for investment strategy development
- Prepared market outlook reports and educational materials for investors and trading communities
- Delivered seminars and online training sessions on financial markets and investment concepts

9Academy Pte. Ltd., Member of FXPRIMUS Group

Jakarta, Indonesia

TRAINING MANAGER

Nov 2020 - Jan 2022

- Led financial education programs including seminars, webinars, and investor training workshops
- Developed training materials and courses covering trading strategies and financial market concepts
- Conducted market research and analysis to support educational content and investor insights

PT Bursa Akselerasi Indonesia, Member of SF Capital

Jakarta, Indonesia

BUSINESS DEVELOPMENT

Sep 2018 - Nov 2020

- Evaluated loan applications and financial data to assess borrower creditworthiness
- Analyzed financial statements and risk factors to support lending decisions
- Delivered public presentations on crowdfunding and peer-to-peer lending in compliance with OJK regulations
- Collaborated with engineering teams to improve internal platform functionality and user experience

PT Gaya Motor, Member of Astra

Jakarta, Indonesia

FINANCE SUPERVISOR

Jan 2017 - Sep 2018

- Oversaw financial operations including accounts payable, receivable, and cash flow management
- Forecasted cash flow and managed banking relationships to ensure financial stability
- Analyzed operational costs and margins to support business decision-making

Certificates

- 2025 **Data Classification and Summarization Using IBM Granite**, IBM
- 2024 **AWS Certified Solutions Architect - Associate**, Amazon Web Services (AWS)
- 2023 **AWS Certified Cloud Practitioner - Foundational**, Amazon Web Services (AWS)
- 2023 **Alibaba Cloud Certified Big Data – Professional**, Alibaba Cloud
- 2023 **Alibaba Cloud Certified Database – Associate**, Alibaba Cloud
- 2023 **Alibaba Cloud Certified Cloud Computing – Professional**, Alibaba Cloud

Education

Hacktiv8

Jakarta, Indonesia

FULLTIME DATA SCIENCE BOOT CAMP (SCORE: 96.62)

Apr 2022 - Jul 2022

- Final project theme: Fintbot - Fintech Chatbot - Repository - Presentation

PPM School of Management

Jakarta, Indonesia

B.ACC. IN BUSINESS ACCOUNTING (GPA: 3.74)

Sep 2011 - Oct 2015

- Thesis theme: Financial and Non-Financial Factors Effect on Bond Ratings
